JOB DESCRIPTION

Positions Proposed: Software Engineer (ASP.NET Core)/ Application Developer

We are looking for a skilled and passionate Software Engineer (.net Ecosystem) to join our growing team in Bhubaneswar. The ideal candidate must have hands-on experience building robust web applications using .NET core / Blazor and have both backend and frontend technologies. Full Stack developers with experience are highly preferred.

- Design, develop, and maintain scalable web applications using .NET.
- Build and maintain scalable web apps and APIs.
- Design and optimize database schemas and queries
- Integrate third-party services and internal microservices
- Write clean, testable, and well-documented code
- Participating in code reviews

Required skills & qualifications

- ASP.NET core,
 - Blazor Server / wasm
 - SQL Server
 - Minimal API
 - Signal R / webhooks
 - Vector database,
 - C# & MAUI
-
- Minimum 2 years of hands-on experience with ASP.NET Core
 - Proficiency in Blazor (Server-side and/or Web Assembly) for component-based UI development.
 - Solid understanding of SQL Server — query optimization, indexing, and database design.
 - Familiarity with Minimal API patterns
 - Working knowledge of Signal R for real-time web functionality
 - Experience working with Vector Database.
 - B.Tech / MCA / B.Sc in Computer Science or equivalent; relevant certifications are a plus.

Salary:

- ₹25,000 – ₹30,000 per month + Other Benefits (for 2 -3 years' experience)
- Negotiable for candidates with 3+ years' experience

Note: - Both Male & Female Candidates can apply.
